# Why Choose Us?

Because we give the kind of service you just can't get from the big telcos.

---

## One Bill

We're a full service telecommunications provider meaning we can provide all your communications on one single bill. So that's one simple payment per month and one company to deal with. Just makes life simple.

## Direct Contact

When you're with us you'll have our direct contact details so if you've got a question you know who to come to. It's the kind of personal service the big telcos just can't offer. Their loss, your gain.

## Choice of Networks

We know reliability is crucial, it's just got to work. So we only partner with the tier 1 networks so you get the service you're paying for, in more places. And better still, we can offer the network that suits you, not us.

## A Communications Partner

We believe in being a valued partner to our clients by offering honest and straightforward advice. We don't make the sale and run, we're here to stay, and we're here to do whatever we need to keep you happy.

## Things You Should Know

---

1. In order to access the Service, you will need a dedicated fixed line broadband Internet connection, such as ADSL 2+ or Business Grade Data you will also need an IP-PBX or SIP Gateway to connect to our SIP Trunks. 2. We recommend that the Service be accessed with a router and a broadband ADSL2+ or Business Grade Data service supplied by us to our specifications. The Service is designed to allow users to bring their own device, but we do not offer any guarantee or assurance that all devices will be compatible and function with the Service. 3. The broadband speed required for the Service will depend on the number of concurrent calls and codec used by your device. We recommend that you have a dedicated Broadband connection for Voice services. Data transmission demands on your network may cause the bandwidth available for voice transmission to be limited if voice and data share the same connection. 4. Extra charges will be incurred for freight for any hardware. 5. Minimum 10 DID numbers purchased in blocks of 10. 6. Porting is charged per application. 7. International Calls are allowed by default, if you require this feature to be blocked you will need to contact us.
